Oban—guaranteed as good as any forty-cent tea in the city, at Vankirk Bros's.

Why is it, doctor?
Asked Mrs. Williams, of old Dr. Evans, yesterday that Broco & Brown's uncolored face cream is so much superior to those other uncolored ones that one buys in bulk? One of the main reasons, replied the doctor, is that Broco & Brown import their face cream only in the Perfection tea can, and as that is an almost air tight metallic package, none of the original astringent and invigorating properties of the sensitive leaf can possibly escape.

Go to Chase's for fine cigars.

See our customers' shawls, in all colors, including the new shades of tan, at \$1.50. They will please you.

Briefs.
—This is the longest day of the year.
—Attend the stereopticon exhibition at the First M. E. church to-night.
—A fine display of pictures on canvas at the First M. E. church to-night.
—Oriental Lodge No. 22, Knights of Pythias, assemble at Castle hall this evening—regular weekly session.
—Janesville City Lodge No. 90, I. O. O. F., occupy Odd Fellows' hall this evening—regular weekly meeting.
—This is the time of year when the Janesville small boy suddenly struck with a desire for religion—astonishingly inquires which Sunday school will give the first picnic?

—The Stunker Hill pigeon shoot mentioned in the Gazette of last evening was taken part in by fifteen local sportsmen. H. G. Carter made the best record, 11. McKelvey coming in next.

—The suit of Mrs. Sarah B. Wheeler against George W. Wheeler, of this city, is on trial in the circuit court today. The action is for a divorce on the ground of cruel and inhuman treatment.

—Don't forget the rare pleasure in store at Myers opera house June 28, "Place aux Dances" and "Songs of Seven." Tickets 25 cents. For sale at Pretzsch & Eversen's, Frank Shore's and Hall & Farnsworth's.

—Joe Cook was arrested by Turnkey Acheson this morning and lodged in jail. Joseph was undoubtedly intoxicated—very, very much so—and it is probable that the charge of being a common drunkard will be made against him.

—A fire broke out at eight o'clock last night in a closet under a stairway back of the office in the Goodwin house, Balot. The loss by burning was of little consequence, but the house was considerably damaged by water, and great excitement prevailed for a time until the flames were checked.

—Some unruly boys, concealed in a barn on North River street this afternoon, were throwing stones at people passing that way, one striking Ed. Kaster on the head, making a very severe wound. Young Kaster recognized some of the party and put Marshal Hogan on their track.

—As Milwaukee street is now, there is considerable trouble in going on either side. Especially is this true near the west end of the bridge where, on account of piles of bricks, lumber and old paving blocks, only one side of the roadway can be used at all. Still it is a necessary evil and comparatively little complaint has been heard.

—This morning Miss Birdie Withington, daughter of Mr. and Mrs. C. B. Withington, of the fourth ward, was found unconscious in her bed. All of the windows were closed, and as the gas burner was an old one, it had allowed the gas to pour out until the room was filled. Alice Withington was in a critical condition when discovered, and it was quite a while before she recovered consciousness.

—T. B. horse belonging to J. W. Nash used on his delivery wagon, broke from a hitching post this afternoon and took a short run around the corner of the Myers block, West Milwaukee street, and, overturning the wagon opposite Starnes & Baker's drug store, was captured. In passing down the street the wagon struck the west side sprinkling wagon, knocking off the sprinkler and otherwise disabling the wagon so that it had to be laid up for repairs.

—Ald. J. B. McLean, chairman of the highway, street and bridge committee of the common council, informs us, in contradiction of the statement in last evening's Gazette, that he has called three meetings of that committee for the purpose of considering matters referred to it, and that he personally notified all the members. We make this statement in justice to Mr. McLean, at the same time stating that our information came direct from a member of that committee, and that he still repeats the same.

—Readers of the Gazette will remember that last April Frank Matthews, partner of Delos Williams in the wine theft at Evansville, broke jail here and escaped. Since then he has been in Minnesota, and in several parts of this state. Being coming back he obtained work in a livery stable in Edgerton, but the thoughtless remarks of one of his relatives betrayed him and he now languishes in the county jail, Turnkey Acheson having brought him back to await trial on the charge of larceny for which he was arrested.

—A delegation of the Knights of Pythias, consisting of Ogden E. Fethers, E. B. Heilmann, Clarence Jackson, E. B. McKelvey, C. B. Evans and E. C. Johnson, started for Milton Junction this morning, going overland. They were to escort the remains of the late A. E. Morse from the depot at that point to Johnson where the funeral is now being held. At twelve o'clock another delegation of Sir Knights took carriages for Johnson so as to be in attendance at the services. At the meeting last night Ogden E. Fethers was appointed to act as prelate.

—The Gazette seems to be very much wrought up over certain things that it did not catch on before. We understand, not from any alderman that has been misled by the "windup," but from the parties most deeply interested in the street car track going in the "center of the bridge" that the question was settled on Friday, before it was known the Mayor would call a special meeting, that the track could only be placed where it has been, on account of the space north of the center of the east end of the bridge being inadequate to the travel.

—As we understand the charter, all such powers are vested solely in the common council; therefore, we would like the Recorder to inform us by what authority the location of the track was settled on Friday. We cannot, for a moment entertain the idea that our mayor is a mere "figure head," we are sure that he was of the opinion that the council only could make the change, hence the call for the special meeting on Saturday evening. Notwithstanding the fact that there was no meeting under that call, the managers of the street car company, as we are informed, refused to lay their track on the bridge until the mayor and a majority of the aldermen met on Monday morning, made certain personal guarantees to

them. Only this, Mr. Recorder, and we drop the subject.

PERSONAL.

—Mayor Wiggins will deliver the Fourth of July oration at Orlorville, Saturday, July 3rd.

—Mrs. S. L. James was at Waukeesa yesterday, attending the funeral of the late Winfield B. Thompson.

—Mr. Oba. E. Jones, of Appleton, is in the city this afternoon shaking hands with his old-time friends.

—Miss Rose Webster, of Whitewater, the lady who is to succeed Mrs. Estlin M. Benedict as second assistant in the high school, was in the city to-day.

—Col. Phil. Cheek, Jr., of Baraboo, Wis., Adjutant General, Department of Wisconsin, G. A. R., is in the city this afternoon, enroute to Brethren, to attend a G. A. R. reunion.

—Mr. F. D. Parsons, of Madison, is in the city representing John B. Gough's last work, "Platform Echoes," and will give the city a thorough canvass. The Gazette is pleased to endorse Mr. Parsons personally, as a gentleman of culture and modest refinement. [The work he represents needs no endorsement. The life of the great man whose pen indited it, a guarantee that "Platform Echoes" is not only readable but highly entertaining and instructive. A sketch of the work will be noticed in another column. The book should be found in every library, and especially in every home where there are children. Examine the prospectus and give Mr. Parsons your subscription.]

OUR CITY SCHOOLS.

Twelve Thousand Five Hundred Dollars Wanted for Their Support Next Year.

The Coal Contract Awarded to W. H. H. Macdonald—Repairs Needed.

All of the commissioners were present at the adjourned meeting of the Board of Education last evening. President Micer being in the chair. While the meeting was really held to prepare an estimate of the appropriation required, the first business taken up was that of supplying the schools with coal. Three bids had been received by the clerk and as W. H. H. Macdonald's was the lowest it was declared accepted. His offer was to deliver one hundred and sixty-five tons of first quality anthracite coal for six dollars and twenty cents a ton; and sixty tons of Looking coal for four dollars and twenty cents a ton. A committee consisting of Commissioners Holloway and St. John was appointed to superintend the delivery of the coal with instructions to enter into a written contract with Mr. Macdonald. Previous to this Mr. Holloway moved to reject all the bids and call for new ones, as important specifications included in the bids of Blair & Gowley and Charles Atwood & Co. were omitted in that of Mr. Macdonald, but the motion was lost.

An estimate was made of the probable expense of conducting the schools during the coming year, and Commissioner Valentine moved that the clerk certify to the common council that twelve thousand five hundred dollars would be needed. Commissioner Bowles moved to amend by making the amount twelve thousand five hundred dollars. The motion was amended and adopted. It will be seen that the amount of money to be collected from the tax-payers this year will be over three thousand dollars less than last year. This is partly due to the economy and good judgment shown by the board, and partly to the fact that considerable money from outside sources will be available for the support of the schools during the coming year. It is believed that the entire school fund will amount to almost twenty thousand dollars. According to the estimates about twelve hundred of this will be spent in repairs, those contemplated being a fire district; new blackboard in the first district; strengthening the wooden cornice and putting in new blackboards and new sidewalk in the second district; a new outhouse and blackboards in the third district; a new fence, some floors, some sills and a new roof in the fifth district, and new sidewalks and blackboards in the central district.

Superintendent Keyes reported the standing of the members of the graduating class in the high school to be as follows:

Boris Bleedorn..... 94.4

Louisa Conover..... 94.4

Ella Croft..... 93.8

Lizzie Duff..... 93.8

Myrta Henderson..... 93.8

Stella Hickey..... 93.8

Geo. H. Keyes..... 93.8

Belle McCulloch..... 93.8

Lizzie Morris..... 93.8

Alice Buckman..... 93.8

Leila Katterbach..... 93.8

Harry Carter..... 93.8

Clara Tish..... 93.8

Agnes Grant..... 93.8

Miss Wilson..... 93.8

Marjorie..... 93.8

He recommended that diplomas be awarded to the members of the class, together with teacher's certificates of such grade as the standing of each member, called for. The recommendation was adopted.

The sum of eight dollars was appropriated for music on commencement day.

After several bills read by the clerk had been allowed the board adjourned.

TWO FIRE ALARMS.

One Severe and One Little Fire.

THE FIRST ALARM.

At five o'clock yesterday afternoon the chief engineer of the fire department was hastily summoned into the insurance office of Sims, Snyder, in the Jackson & Smith block, East Milwaukee street, where he found a room filled with smoke. Not wishing to take any chances, he ordered an alarm of fire sounded and the fire department was on hand in a moment. Search was made and it was soon discovered that the smoke came from the burning of paper in a stove in the Valentine School of Telegraphy, located on the fourth floor; the smoke had been blown down the chimney to the cellar and found escape into the insurance office. A large crowd of people hurriedly congregated, expecting a serious fire. No damage.

THE SECOND ALARM.

At 4:20 o'clock this morning an alarm of fire was given at the east side engine house by Officer McGinley, summoning the department to the residence occupied by Mrs. Geo. Cook, on the corner of South Main and South Second streets, opposite the Wisconsin Shoe Co's building, which was on fire. The fire had gained considerable headway before the alarm was sounded, but it was quickly extinguished after their arrival, but not until the building, which was a structure—old story with attic—built of gravel and mortar, was made almost a total wreck. The building was owned by a non-resident—Mr. P. S. Holmbeck.

Mrs. Cook had an insurance of \$300 on furniture and wardrobe, which will very nearly cover her loss. Her insurance is with Silas Hayner, in the Continental of New York.

The rear of the building appeared to crumble when the water struck it, and that and was made a complete wreck. The fire was caused by the breaking of a lamp, which dropped from the hand of Mrs. Cook, while she was giving her son a drink of water.

FOR MARGARINA.

In fine lots and other property, do not fail to see my list before you buy, never has been a better time than the present to invest your money, and double it in one year. Give me a call when you want to buy or sell.

FROM STEVENS POINT.

Further Details of the Shooting of A. E. Morse.

STEVENS POINT, Wis., June 19, 1886.

As you are aware, Amos E. Morse, formerly of your city, was shot in his buggy on the main street at 6 p. m., by W. W. Hazeltine, son-in-law of Mat. Weddell, of this city. Hazeltine hailed Morse on the street, stopped him and shot three times, one shot taking effect. The horse started up, pulling Morse off the seat
